What **cannabis formats** do consumers want?

The three core categories, **dried flower, pre-rolls, and vapes**, make up the vast majority of cannabis sales. Within these three categories, their shares of sales may rise and fall for seasonal popularity, but they never lose their spots in the top three.

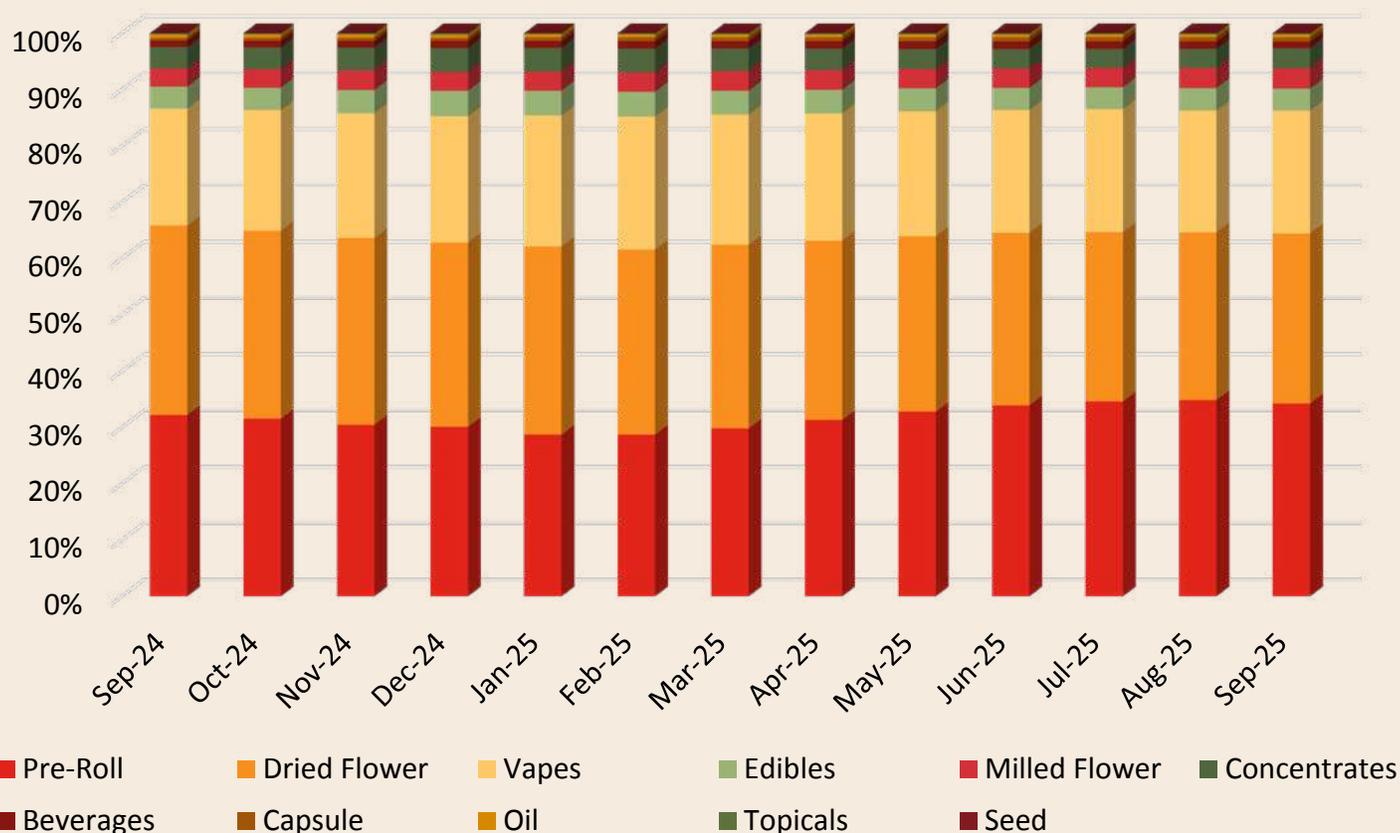

Over the last year, we've seen **ready-to-use** formats like pre-rolls and all-in-one vapes in a huge upward trend.

With the weather cooling down, it's the perfect time to cozy up with **indoor-friendly** weed like vapes and dabs.

What formats are **selling the most?**

This data shows the trends in cannabis formats over the last month. Different formats become more popular in different seasons, as weather changes where and how people smoke, but **dried flower** remains the most popular format month over month.

Mix and match four 7 g dried flower to make your own ounce, or stock up all at once with a big ounce bag of your favourite strain!

All-in-one vapes keep shooting up the rankings with more formulations than ever before, from distillate to liquid diamonds.

GIFT GUIDE

HELPING YOU GIVE THE GIFT OF GREEN

Well, the weather outside isn't frightful yet: but before the winter cozy mood sets in and all we want to do is curl up on the couch, it's time to get our holiday shopping started! Or, at least, get our list ready.

Here's the work done, so you don't have to stress. We've checked our top lists (then checked them twice) for this year's best cannabis to wrap in paper and tie with a bow!

All pictures shown are for illustrative purposes only. Actual product may vary.

1

1. Vortex - Afghan Black Hash 2 g

For someone who likes to keep it classic or infuse their own joints, a good hash fits the bill—and when it comes to gifting, it's a safe bet to stick with the crowd pleasers! Vortex's traditional style hash has been **near the top of our bestselling concentrate lists for over a year, taking the #1 spot several times.** It's made from air-cured, biodynamically-grown cannabis, sifted to harvest potent trichomes, then gently pressed and heated for a gooey, potent, and fragrant result.

2

2. Spinach – SOURZ Fully Blasted Blue Raspberry Watermelon 10-Pack

If you're the type who picks gifts based on number of reviews, then look no further, because Spinach's edibles are the bestsellers of bestsellers. Every month, their dual-flavoured, sour crystal coated gummies make our top lists in multiple flavours, and no flavour more often than Blue Raspberry Watermelon. Now, pick up these gummies in a **ten pack**, with **each gummy infused with 10 mg of THC – that's 100 mg of THC in total!**

3

3. Redecan - Purple Churro 14 g

For a bulk gift on a budget, Redecan's got a lot of variety to choose from. Their Purple Churro brings a wintery flavour profile of **cinnamon, vanilla, and sweetness** from its Cinnamon Horchata and Apples & Bananas genetics, along with a heavy blanketing of potent trichomes. If your friend is more of an on-the-go smoker, Purple Churro **also comes in Redees**, with a 10-pack of slim, single-size pre-rolls wrapped in hemp.

4. Color Cannabis - Chromatica 7 g

Bring a little colour into their life with this dense, fragrant cross of God Bud and OG Kush with a silver metallic trichome sheen. With a late-fall, fruitcake aroma of fruit, earth, and musk, this indica-dominant hybrid delivers smoothness and potency from Color's elevated growing practices, including full temperature and humidity control, hang-drying, and nitrogen packaging for maximum freshness. Grown in Ontario!

5. Back Forty - Backpackers Pre-Rolls (Fire Breath) 10 x 0.75 g

One of Back Forty's top-selling strains, all packed up and ready to take a trip. This potent, dense indica is a cross of **Fire OG** and **Mendo Breath**, giving it pungent notes of earth, wood, spice, and a hint of diesel. For deep snowy nights, this strain is reminiscent of a big, warming forest campfire—just light it up and see why.

Or, if they're already a fan of this strain, stock them up: Fire Breath is **also available in bulk 28 g dried flower!**

6. Solei - Balance Body Cream 75 g

With a zesty orange scent reminiscent of an old holiday tradition, this balanced body cream is the perfect stocking stuffer. Infused with **250 mg each of THC and CBD**, Solei's moisturizing formula allows for targeted application where it's needed, and offers a smoke-free alternative for when the days are chilly and smoking outside in the snow just isn't an option.

7. Queen of Bud Cannabis & Accessories

Queen of Bud almost feels made for gifting, from unique, crystal-inspired premium pre-rolls like the humulene-forward **Aventurine Fit Queen**, to **petal-wrapped infused blunts** like Rose Quartz and Yellow Topaz, and to **stunning glass and accessories** that live in a class of their own. Queen of Bud delivers their top-quality weed and accessories at a stellar price point, **making elegance affordable**. Stuff their stocking with a **pre-roll pack** or bestselling beautifully designed **Zippo lighter**, light a **smoke-eliminating candle** before your holiday dinner, or wrap up a showstopper like their matte and blue ombré **18-inch Blue Topaz bong**. As a bonus, their glass pieces also come in unique premium boxes ready to slip under the tree, no wrapping required.

Want to explore Queen of Bud's newest drops? Check out our full feature on page 32.

8. BOXHOT - BOXHOT Pineapple Express Vape 1.2 g

With a huge range of flavour profiles, sizes, and cannabinoid combinations, there's a reason BoxHot always flies off our shelves. **Perfect for a friend who complains about weed smell in their house**, this vape packs a hefty THC punch without the smoke or sticky resin that gets on everything, instead bringing sweet pineapple clouds with a tropical citrus twist. Packed with **1000 mg of THC** and some of the purest cannabis distillate on the market!

9

9. Nugz - Neon Bubble Bath Cured Resin All-In-One Vape 1 g

Ready to puff, right out of the gift box! This all-in-one has it all tied up with a bow: potency, ceramic hardware, and USB-rechargeable battery, plus a combo of Neon Sunshine and Bubble Up cured resin. Expect a clean, fresh aroma with a dash of sharp citrus, giving it a squeaky clean vibe.

10

10. Sticky Greens - Solid Gold Hits Pre-Rolls 3 x 0.5g

Already have a larger, non-cannabis gift in mind, but want to throw in a little green twist? Add a pre-roll 3-pack! Back by popular demand, Sticky Greens put together this variety pack with three of their high-flavour, fruity hits: Mango Tango, Lychee Ice, and Apple Blast. They're made from whole flower, infused with liquid diamonds, and coated in kief for an extra boost of potency!

What **type of strain** is sold most?

Many consumers use indica, sativa, or hybrid as a **proxy for the experience** they want to get. We see more consumers buying dried flower indica strains for use at home. On-the-go formats like pre-rolls, edibles, or vapes often feature sativa strains.

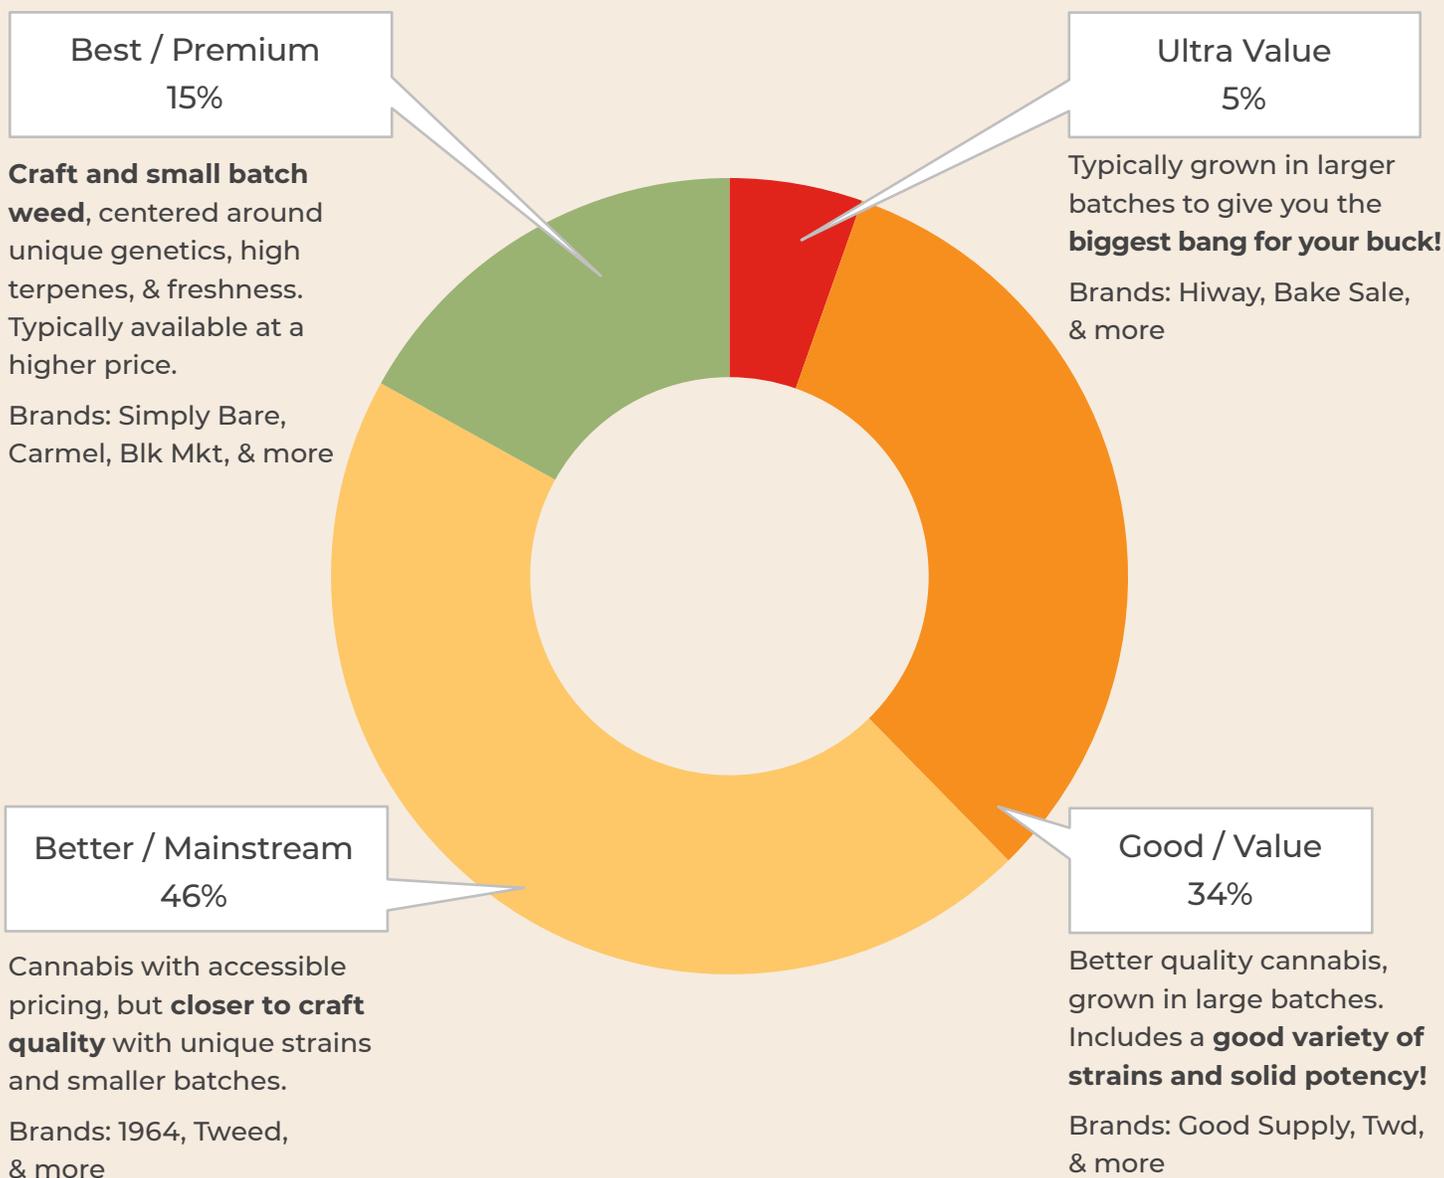

In ounces, **indica** strains take many of the top spots, but hybrids are close behind.

When it comes to infused pre-rolls, **hybrids** top the charts.

How much do consumers pay for their cannabis?

The vast majority of Canadian consumers buy high to mid value priced cannabis, with craft and premium categories remaining more niche. However, many industry professionals and online communities prefer premium and craft categories!

Categorizations of cannabis products are provided by the licensed producer and the associated cannabis & liquor control board.

High-value ounce bags keep getting more potent, really delivering on their promise of bang for your buck.

What **flower** sold the most this month?

Dried flower, the cured buds of the cannabis plant, is the **most popular form of cannabis** sold. Usually vaporized or smoked in bong, pre-rolls, or pipes, dried flower offers the widest selection of strains, flavours, and experiences of any category. Dried flower is often chosen for its cost-effective nature and versatility.

What **concentrate brands** did consumers buy this month?

Normally consumed in dab rigs or vaporizers, concentrates are a highly potent form of cannabis, with THC levels far above dried flower. The most potent forms of concentrates include those like wax, shatter, THCa powder, or oils. Less potent forms include kief or hash, which are often paired with dried flower in bong and joints.

The bestselling concentrate brands have a variety of specific strain genetics, consistent quality, and offer several formats. The types of concentrates explored here are dabbable concentrates such as shatter, live resin, diamonds, and badder.

This month's bestselling edibles

Edibles are a very popular category as a smoke-free option of cannabis, as they don't involve inhalation and have easy to control doses. While soft chews have always been the most popular, recent innovations in edibles are showing slowly rising sales in cookies, hard candies, and chocolate.

This is a piece unlike anything they've seen before: surprise them with this waterless filtering and cooling pipe! The Maze-X's patented long maze path is designed for smoother, cough-reducing hits by lowering smoke temperature and filtering out resin and debris. It can also be fitted with additional activated carbon filters, and has a removable mouthpiece for safer sharing. It's super durable, with an anodized aluminum body and borosilicate glass bowl, and comes apart from easy cleaning and maintenance. For smoking on the go, snap on the bowl cap!

Who are the bestselling **oil & capsule** brands?

Cannabis oils and capsules are commonly used for their predictability. In this format, it's easy to choose an exact dosage of THC or other cannabinoids, most often CBD. They're also favoured with those looking for a smoke-free, prep-free, and discreet alternative. Cannabis oils are also often used for infused baking.
